

Young Joon Oh

youngjoon5@gmail.com | youngjoon5.github.io | Roanoke, VA

Research and Teaching Interests

Political Economy; Policy; Computational Social Science (Networks & Simulation Modeling); Quantitative Methods (Statistics, Bayesian statistics, R, Python); Complex Adaptive Systems; Crisis, Risk and Infrastructure (Governance and Access)

Education

- Aug. 2015 **Ph.D. in Public Policy and Political Economy**, *University of Texas at Dallas*
Dissertation: *Agent-Based Network Modeling for the 2008 Financial Crisis and the Sluggish Recovery*.
Advisor: Dr. Euel Elliott.
- Feb. 2001 **M.A. in Political Science**, *Seoul National University*, Seoul, Korea
Thesis: *Spatial Voting Models and their Applicability to Korean Election*. Advisor: Dr. Suik Hwang.
- Feb. 1998 **B.A. in Political Science and Diplomacy (Minor: Economics)**, *Chung-Ang University*, Seoul, Korea

Academic Positions

- 2026–Present **Visiting Assistant Professor**, *New College of Florida*
- 2015–2016 **Postdoctoral Research Associate**, *Julie Ann Wrigley Global Institute of Sustainability, Arizona State University*, RIPS Project (Resilient Interdependent Infrastructure Processes and Systems)
- 2015 **Instructor**, *University of Texas at Dallas*, *EPPS 2302: Methods of Quantitative Analysis in the Social and Policy Sciences*
- 2010–2015 **Teaching Assistant**, *University of Texas at Dallas*
- 2000 **Teaching Assistant**, *Seoul National University*, *Game Theory*

Policy & Government Experience

- 2008–2009 **Legislative Aide**, *National Assembly of Korea*, Seoul, Office of Assemblyman Park, Jong Hee Committee on National Policy
- 2002–2008 **Legislative Aide**, *National Assembly of Korea*, Seoul, Office of Assemblyman Maeng, Hyung-Kyu (Chairman, Commerce, Industry & Energy Committee)
Committees: National Defence; Environment & Labor; Commerce, Industry & Energy; Foreign Affairs, Trade & Unification
- 2007 **Planning & Strategy**, *Presidential Campaign*, Candidate Lee, Myung-Bak
- 2006 **Message Team**, *Seoul Mayoral Campaign*, Candidate Oh, Se-Hoon
- 2004 **Legislative Aide**, *General Election Campaign*, Candidate Maeng, Hyung-Kyu

Teaching Experience

- 2016 **Project Manager**, *CEE 598: Resilient Infrastructure*, Arizona State University
Coordinated project-based learning on interdependent infrastructure resilience (RIPS).

- 2015 **Instructor**, *EPDS 2302: Methods of Quantitative Analysis*, UT Dallas
Topics: statistical reasoning for public policy; data analysis in R/STATA; reproducible research.

Workshops & Training

- 2014 Goldrain Workshop: Understanding and Mastering Complex Systems in the Digital Age. Hosted by Dr. Dirk Helbing, ETH Zurich.
- 2013 WEHIA PhD School: Agent-Based Modeling & Policy Design for Financial Crises - Workshop on Economic Science with Heterogeneous Interacting Agents

Publications & Public Engagement

- Working Papers — **Simulating the Divide: The Three Layers of Segregation in Washington, D.C.**
Developing an agent-based model of residential segregation that links household preferences, neighborhood conditions, and institutional barriers to explain the emergence and persistence of urban inequality.
- **Stochastic agent-based network modeling of innovation networks using SIENA.**

Medium: Published essays on Medium exploring Political economy, Computational social science, and Computational modeling.

Recent:

- (Mar. 2026) Computational Modeling of the 2026 U.S.-Israel-Iran Conflict (Managed Stalemate at the Strait)
- (Mar. 2026) Why Goliath Struggles and David Does Not Lose : The Logic of the U.S.-Iran War
- (Feb. 2026) The Two Regimes of Hospital Transmission (Firebreak & Saturation): Network-Based SI Simulations of Hospital Contagious Risk
- (Oct.2025) Modeling the Renaissance: A Historical Art Network Using Computational Methods in R and Gephi
- (Sep.2025) Donbas, NATO, and the emerging battle against economic decline
- (Aug.2025) The Threshold of Decline and Transition: America at the Crossroads
- (Jul.2025) Tariffs Don't Tell the Whole Story. Public Debt and Market Interest Rates Do
- (Mar.2025) Can Passes Become Clues? : Prediction Models Using EPL Passing Networks
- (Feb. 2025) Which one is More Intuitive: Bayesian or Frequentist
- (Jan. 2025) Three Specific Conditions in which Simulation can shine (Computational Social Science 2)

Awards & Honors

- 2016 International Symposium on Sustainable Systems and Technology Travel Award (\$900).
- 2015 MPSA Annual Conference PPPE Travel Grant (\$400).
- 2014 Winter Simulation Conference (PhD Colloquium) ACM SIGSIM Travel Award (\$1,000).
- 2014 APPAM Fall Research Conference PPPE Travel Grant (\$700).
- 2011 Scholarship Recipient, UTD Korean Student Association.
- 1999 Academic Scholarship Recipient, Seoul National University.

Technical Skills

Advanced R, Python, NetLogo, STATA, $\text{\LaTeX}$, Gephi
Intermediate QGIS

Languages

Korean Native
English Fluent
